

Sit down in (street) style

The artist “HuskMitNavn” has become a household name, not only at home but also on the international art scene with his controversial and humorous street art. HuskMitNavn (RememberMyName) has created four different illustrations for the Chairik chair from furniture manufacturer Engelbrechts. It’s easy to see that HuskMitNavn has made the designs using some of his favourite materials: felt-tip pen, chalk and pasteboard. The illustrations are protected by the strong, silky-matte melamine surface characteristic of the Chairik chairs. The Chairik chair was designed by Erik Magnussen and sells in five-figure numbers each year. This edition, though, is only available in a limited range produced until 31 December 2009. Price DKK 2500 for one chair with four legs or runners. engelbrechts.com

Assemble your own jewellery

In a mere 6 years, Spinning Jewelry has acquired a key position on the international market for assemble designer jewellery. As the name suggests you can assemble and combine pieces of jewellery in an infinite variety of creative ways to match any mood, need and occasion. What started out as ten original ring designs has grown to a full-scale jewellery concept of rings, earrings, chains and bracelets. Assemble your own piece of jewellery at Plaza Watches & Jewellery, Terminal 2 and 3. plaza-denmark.dk

Relax on the go

The head and neck rest RESTAHEAD is a revolutionary Danish invention that helps you rest and relax wherever you are. Due to its unique design the pillow adjusts to your body and supports the entire neck in a natural position, allowing the muscles to relax. This gives you effective rest and comfort. The pillow works discreetly behind your neck and back and does not interfere with your face, makeup or headphones. RESTAHEAD is small, light and ready to use – and it can be used everywhere. It will no doubt become a must-have in the handbag of frequent travelers. Price: DKK 249. Available at Copenhagen Airport (Illums Bolighus) and online at restahead.com
